

THE BRITISH COLONIST.  
Thursday Morning, Jan. 30, 1868.  
TO ADVERTISERS.  
Transient Advertisements must be paid for in advance on a cash basis.  
TO AGENTS.  
Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.  
Auction Sales To-day.  
J. A. McOREA, Wharf street, will sell, at 11 o'clock, Wines, Stout, Groceries, Provisions, Cigars, Tobacco, etc.

The Meeting.  
The public gathering at the theatre last evening was almost unanimous in favor of Confederating this Colony with the East. Several excellent addresses were made by friends of the movement. A few political fossils had been unearthed the day before and appeared clean shaven at the meeting, with an organised rabble of noisy supporters at their back, attempting to turn the meeting into a farce. One of their number, who from his proclivities is popularly supposed to have one foot in the grave and the other in a sewer, indulged quite freely in personalities; but his indecency provoked the people and destroyed the little influence that he otherwise might have exerted. When put to vote the resolution in favor of Confederation, with the Overland Wagon Road as an essential condition, was successful amid the wildest enthusiasm. Only about twenty hands were raised in opposition. A resolution appointing a Committee to wait upon the Governor to ascertain what progress had been made in the matter, and to take steps to further negotiations for the Union of this Colony with the Dominion, was unanimously adopted, and the meeting broke up with three cheers for the Mayor.

The Proposed Railway across Nicaragua.  
At the last meeting of the Royal Geographical Society Mr Collinson read a paper describing his survey of a hitherto unexplored part of Nicaragua, between the lake and the Caribbean Sea. His object was to ascertain, on behalf of certain American capitalists, whether it was possible to construct a railway between the Pacific and the Caribbean Sea, on the route suggested by Capt. Pim; and the simple question was whether the gradients were practicable and the country sufficiently healthy to permit of a railway being made with a prospect of low tariffs and profit to the contractors. Mr Collinson has answered in the affirmative. That part of the country between Lake Nicaragua and Managua and the Pacific has often been surveyed for railway purposes, and has been reported on favorably; but the tract of land lying between San Miguelito on the lake and Pim's Bay on the Caribbean Sea, uninhabited and covered by dense forests and jungle, remained unexplored, even partially, until 1863. In that year Captain Pim and Mr Collinson surveyed thirty miles inland from Monkey Point, and in 1865 an unsuccessful attempt to complete the task was made by an American backwoodsman. In February of this year Mr Collinson again commenced operations, this time from the lake end of unexplored route; he was accompanied by two Englishmen and a dozen natives of Central America. Starting from San Miguelito, he followed the course of the two rivers—the Tule, which rises in the range of hills dividing the lake from the sea and empties itself into the lake, and the Rama which rises on the other side of the hills, and taking a pretty nearly eastern course, empties itself into the sea about eleven miles south of Monkey Point. Working up the valley of the Tule, he came to a pass only 615 feet above the level of the lake, at a distance of thirty-one and three-quarter miles from San Miguelito, and about sixty from the sea. The summit level he found to be only 610 feet above the lake, so that the notion of a mountain range stopping the way has been put an end to.  
The route from the pass lay in the valley of the Rama, and after working his way for about thirty miles, making sixty-one and a half altogether from the lake, he came upon his old work of 1863. The route from this point continues by the side of the Rama, the whole distance to within a few miles of the coast. The gradients appear to be very good; the worst is but one in eighty, and that runs for only a short distance. The road, Mr Collinson is confident, could be made without any heavy earthworks. The rock, wherever apparent, is volcanic, basalt, porphyry, and tuff, and, except on the top of hill, it is covered with yellowish earth, sometimes of the consistency of clay. This subsoil is covered by loam, which being well watered is astonishingly fertile. The proposed terminal ports for the railway are on the Caribbean side of a small bay about four miles across, of an average depth of 3½ fathoms, situated under the lee of the Monkey Point, and two small islands; and on the Pacific side, either Realengo or the small harbour of San Juan del Sur. In the course of the conversation which followed the reading of the paper, Mr Seemann spoke highly of the climate, and expressed the opinion that the railway, if made, would have abundant feeders from the increasing mineral works. Sir E. Belcher, though disposed to recognise the authenticity and value of the results obtained, could not regard Nicaragua as the best point for a line; the climate was very bad, the insects unbearable, and the country altogether the 'vildest part of the whole American continent'; he also thought the ports not sufficiently good, especially on the eastern coast; in consequence of the frequent gales. Mr J. B. Murchison spoke highly of the climate as compared with the generality of Central America countries, and showed that the Nicaragua route was shorter than either the Panama or Honduras. Among others who endorsed Mr Collinson's conclusions were Admiral Gannaway, Captain Maury and Captain Peacock. Captain Pim drew attention to the fact that, with the exception of the Panama Railway, this was the only survey which had been made with the spirit level.

The American Senate, by resolution, have decided to discontinue the use of the prefix 'honorable' which has been attached to the names of members of that body since its first organization. Plain 'Mr.' or 'Esquire' is all the title the members will in future be entitled to.

By Electric Telegraph  
SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DESPATCHES.

Europe.  
The excitement over Fenian movements still continues, and arrests are made daily. The Sheriff of the Island of Alderney has been removed for complicity with the Fenians, and sent to prison to await trial.  
Rumors are current in parts of the continent, and have even been extensively printed, to the effect that Prussia has secured the use of the United States navy in case of war.  
Latest despatches from Abyssinia say the British forces have made further advances, and that the prisoners at Madilla were alive and well and carefully guarded. Many feared they would be massacred when the King heard of the British approach, but no demonstrations against their lives have yet been made. Their treatment remains unchanged.  
It is officially denied that any official orders authorising the arrest of Train were sent from the home office. The responsibility is thrown entirely upon the local authorities.  
The Cork Observer asserts that the latest despatches between Lord Stanley and Seward have finally closed the correspondence relative to the Alabama claims.  
Serious anti-Ministerial riots have occurred at Prague. The latest telegrams announce the suppression of disorder without bloodshed.  
Neither the North German States nor the Hamburg line of dispatch steamers will leave for America next week. Reason not stated.  
Advices from the Abyssinian expedition report Theodore in camp between Vedala and Pantinel, his palace at Madgala, where it is presumed all the captives are at present. The native rebel chiefs have drawn up their forces in front. Some powerful chiefs are friendly to the expedition and have offered their aid. A fight is expected soon.  
Advices from Madrid say a speedy rising is expected in the provinces of Arragon and Catalonia in favor of the eldest son of Don Juan. The widow of Don Carlos has sent forty millions of reals in aid of the insurrection.  
Paris, Jan. 25.—The Government has officially notified the Prefects of the various departments in France of the passage of the new army law, declaring that instead of being a war measure it is a pledge of continued peace.  
Ten Paris newspapers have been fined one thousand francs each for publishing illegal reports of the proceedings of the Corps Legislatif, and ten editors sentenced to six months' imprisonment.

United States.  
WASHINGTON, January 25.—The President seems determined [not] to recognize Stanton. Petitions have been received from the Radical Convention of Louisiana, asking the removal of Hancock and praying Congress to accord the Convention power to appoint all the civil officers.  
Canada.  
QUEBEC, Jan 25.—A memorial has been introduced in the House of Assembly to take into consideration the lamentable emigration of the inhabitants of the Province to the United States, and to devise means to arrest the same. The Governor spoke at great length on the question, and pointed out the cause of the emigration. He proposed a homestead law and laws to encourage manufactures.  
West Indies.  
HAVANA, Jan 24.—An arrival from St. Domingo reports that the commissioner sent by President Cabrera to obtain assistance for Geffard's return were unsuccessful. Great destitution prevails in all the large towns of Dominica.  
HAVANA, Jan 25.—Dates from Antigua report constant shocks of earthquakes since the 29th ult.  
The rebellion in Venezuela is increasing.  
Sandwich Islands.  
We have the Commercial Advertiser to the 28th December:—  
The ship Minnehaha brought a quantity of tea seeds, which will enable those wishing to experiment in raising the plants to do so. We see no reason why it may not be successful.  
The vice of gambling is fearfully on the increase in this city. It has been imported, and like most other importations thrives wonderfully in our mild and genial climate.  
Her Majesty Queen Emma took passage in the steamer Kilauea on December 19th for Kailua, the ancient city of Hawaiian Kings, where she will remain some time.  
The southwesterly trades, which prevail for the greater part of the year in the western part of this ocean, appear to have changed their limits, having blown pretty steadily here for the past three weeks. The past week in particular has been very pleasant and mild, though these westerly winds lack the braising and invigorating qualities of the northeasterly trader.  
The Hawaiian Gazette of December 21st contains the following.  
A heavy freshet occurred on Thursday night in the Kaula Valley, near Lahaina. The water rushed in violent torrents down the mountain side to the sea. One man and two women were swept away in the flood and drowned. It is supposed they were catching drift wood and lost their footing on the bank. On Friday the body of the man was discovered in the sea, and the body of one of the women was also recovered from the gulch; the third has not yet been found.  
Considerable anxiety is being felt about the safety of taro crop. Throughout out all the valleys in this district the taro has been attacked by an aphid, the same species which so greatly infests our rose bushes, and its ravages are so extensive that the loss of the whole crop is feared.

A WEDDING IN HIGH LIFE UNEXPECTEDLY POSTPONED.—A despatch dated Washington, December 17, says: The great topic of conversation in Washington to-night, to the exclusion of everything else in politics, finance, reconstruction or impeachment, is the disappointment of a fashionable young lady who was to have been married this morning in the presence of the *creme de la creme* of Washington society to no less a personage than the distinguished Colonel Parker of General Grant's staff: Miss Minnie Sackett, the lady thus unpleasantly brought before the public, is one of the most beautiful women in the district, a bright blonde with dark brown hair, and but nineteen years of age. It is stated that Colonel Parker has been paying attentions to Miss Sackett for a period extending over several months, and would have been married long ago had it not been for the objections of Miss Sackett's friends. But finally the happy morn was fixed, several hundred invitations were issued about ten days ago to the friends and acquaintances of both parties, and to-day at the Church of the Epiphany, on G street, between Thirteenth and Fourteenth, where the event was to have taken place, was filled by an anxious throng who vainly waited and wondered at the delay. General Grant was to have given away the bride to his Aide, and arrayed in his General's uniform, to do honor to the occasion, he left the War Department at an early hour this morning, accompanied by the members of his staff. He arrived in time to witness the posting of a bulletin on the church to the effect that the ceremony for some reason was deferred. Then arose the buzz of eager inquiries; but 'The Colonel' is not here was the only satisfactory answer that anyone could give. Gen. Grant was in complete ignorance of the Colonel's movements, and apparently considerably annoyed at his non-appearance; but he soothed his ruffled feelings with a cigar. Some one suggested that Parker was sick, but his intimate friends laughed at the idea, for Parker was never sick in his life. It may not be generally known that Col. Parker is a full-blooded Indian, a near relative to the famous Red Jacket, and of the present Chief of the six nations of Cherokees. He is about five feet ten inches in height, of strong manly build, and of pure Indian complexion. He served through the war on Gen. Grant's staff, and his position in the army is that of First Lieutenant in the Second Regiment of Cavalry, transferred to Staff duty with the brevet rank of Colonel. Search was made for the missing one everywhere, and the latest rumor is to the effect that he left town a few days ago, promising to be back in the city this morning. His trip was known only to a few friends, and they were left in ignorance of his destination. The gossipers are enjoying a delightful time over the affair, and the latest story is that he is indisposed, and that the happy event will take place in the course of a few weeks.

White Swellings  
are generally considered to be indications of a scrofulous tendency in the system, and the first thing to be done for their removal is to purify the blood and humors. Bristol's Sarsaparilla and Pills, used conjointly, are possessed of the very properties required; they cleanse, purify, neutralize, and purge out of the system the bad humors which are the sole cause of trouble.

Delicate, Delicious and Refreshing  
The subtle soul of fragrance, delicate, delicious and refreshing, is embodied in the true MURRAY & LANMAN'S FLORIDA WATER. Science when it produced this matchless perfume, caged in a glass prison the very spirit of the flowers. Avoid the worthless counterfeits.  
Always ask for the Florida Water prepared by Lanman & Kemp, New York.

HOLLOWAY'S PILLS—Mastery over Disease.—There is a constant tendency in the human body to pass from strength to weakness unless some means be adopted to counteract the "wear the tear," and other deteriorating influences. Holloway's Pills effect this admirably; they accomplish all the most exacting invalid can require. As alteratives they regulate the stomach and rouse the liver; as purifiers they improve the blood's quality; as aperients they promote peristaltic action, and as tonics they invigorate the nervous system. They have blessed with health thousands previously blasted by disease. In all cases of indigestion, palpitation, perspiration, headaches, heartburn and functional obstruction, sufferers have Holloway's Pills as a resource to fall back upon which will never disappoint their most sanguine hopes.

The best Remedy for Purifying the Blood, strengthening the Nerves, Restoring the Lost Appetite, FRESH'S HAMBURG TEA.  
It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT!  
For sale at all the wholesale and retail drug stores and groceries.

ANOTHER FISHERY CASE.—The Detroit Tribune says:—Some small islands in the Dominion of Canada, and lying in Lake Erie, about eight miles from the mouth of the Detroit River, known as the "Hen and Chickens," have been leased to an old man, who has been greatly interfered with by certain Americans, who came to the islands and set nets, which brought them in a great number of splendid fish and made the fishing of the lessee utterly valueless. Accordingly he procured the services of a magistrate and several constables; and, on Tuesday night, they made a raid upon the islands. The results were the capture of six men, three boats and a large supply of nets and other fishing apparatus, together with about 1000 large fish. The men were each fined \$20 and costs by the magistrate, who constituted the island his court; and the boats and nets, with all the fish, were confiscated. This will probably have the effect of breaking up the operations of the band.

The report of Gen. Grant mentions the remarkable fact that during the last year no fewer than 13,000 men have deserted from the American army. The greater part of these desertions, we presume, occurred on the Plains, where it is well known that men enlisted in westward bound regiments for the express purpose of getting cheap and safe conveyance to the mining regions. During the last season, for example, more than half of the Seventh Cavalry (Ouster's) departed with their horses, arms and accoutrements, and probably made their way to the gold regions of Colorado and Montana. A desperado who wants to reach the diggings has only to enroll himself in some command bound for the Indian country, and he is pretty sure of an opportunity to make off when he has marched as far as he chooses to go. The number of recruits during the year was 34,000, so that the desertions reach the enormous ratio of nearly forty per cent. of the enrollments.

## LIQUOR CARBONIS DETERGENTS

Concentrated Alcohol Solution of the COAL TAR

[Extract from the Lancet, Dec. 22, 1886.]

Liq. CARBONIS DETERGENT.—We were very sceptical of the value of new remedies, and it was in a spirit of skepticism that we tried the liq. carbonis detergent. It is represented as a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzene, naphthalene, and phenolic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of suspension, almost equivalent to solution. Our therapeutic experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergent. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial in the practice of the dermatologist, and in various other, such as eczema, and the preparation is put into the form of soap.

## PURE COAL TAR SOAP

(Registered as Sapo Carbonis Detergentis.)

This Soap is unrivalled as a

### CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

## Holloway's Ointment.

It is wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and acts upon the system, and restores the most wholesome influence over the internal structure of the body by cleansing all internal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

For sufferers from the cracking pain of rheumatism and Gout this ointment will prove invaluable. After treatment with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scoury.

This Ointment is a certain cure for Ringworm, Scoury, Eczema, or King's Evil, and all other most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Swelling of the dangerous and stealthy complaint which frequently creeps upon us by insensible degrees, is a trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where the organs lie. Most dropsical cases will yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, (as a delicacy concealing them from the knowledge of the most intimate friends). Persons suffer from piles and similar complaints when they might see Holloway's Ointment with instant relief, and effect a cure without the annoyance of explaining their ailment to anyone.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a cure.

Both the Ointment and Pills should be used in the following cases:—

Blisters,	Cancers,	Scalds,
Balms,	Coupled and Sore Nipples,	Sore Throats,
Burns,	Stiff Joints,	Scrofula,
Bleeds,	Scalds,	Scoury,
Bite of Mosquitoes,	Fistulas,	Sore Heads,
and Sand Piles,	Gout,	Tumors,
Cuts,	Jaundice,	Ulcers,
Chapped Hands,	Lambs,	Wounds,
Corns,	Piles,	Yaws,
	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY, 44 Strand, (near Temple Bar), London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices: 1s 1/2d, 2s 6d, 4s 6d, 11s 2d, and 21s each Pot.

\*\* There is considerable saving by taking the large size.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box.

## Indigestion & Stomachic Weakness.

## PEPSINE.

THIS INVALUABLE MEDICINE for well as indigestion, may be had in the form of **POWDER, PEPSEINE GLOBULES, IN BOTTLES, OR ORDER, WINE, AND LOZENGES.** THE **POWDER** is **PURE, IS EASY TO TAKE, AND THE LOZENGES** a NEW, AGREEABLE, and convenient manner of taking the medicine. Manufactured by

**T. MORSON & SON,**  
81, 83, and 124, Southampton Row, Russell Square, London

And may be obtained of all respectable Chemists and Storekeepers.

**GELATINE (Morson's Patent) MORSON'S KREOSOTE,**

And every description of Chemicals, and all new Preparations carefully packed for shipment.

\*\* See their Name and Trade Mark on all Preparations.

Orders to be made payable in London.

## BRISTOL'S (Vegetable) SUGAR-COATED PILLS!

THE GREAT CURE

For all the diseases of the

### LIVER, STOMACH AND BOWELS.

Put up in Glass Phials, warranted

### KEEP IN ANY CLIMATE.

These Pills are prepared expressly to operate in harmony with that greatest of blood purifiers, BRISTOL'S SARSAPARILLA, in all cases arising from depraved humors or impure blood. The most hopeless sufferer need not despair. Under the influence of these GREAT REMEDIES, maladies, that have heretofore been considered utterly incurable, disappear quickly and permanently. In the following diseases these Pills are the safest, the quickest, and the best remedy ever prepared, and should be at once resorted to.

### DYSPEPSIA OR INDIGESTION

### LIVER COMPLAINTS

### CONSTIPATION

### HEADACHE

### DROPSY

### PILES,

For many years these PILLS have been used in daily practice, always with the best results, and it is the greatest confidence they are recommended to the afflicted. They are composed of the most costly, purest and best vegetable Extracts and Balsams, such as are but seldom used in ordinary medicines, on account of their great cost, and the combination of rare medicinal properties is such that in long standing and difficult diseases where other medicines have been completely failed, these extraordinary PILLS have effected a cure and thorough relief.

Only 25 cts per Phial.

FOR

### FIRE AND LIFE ASSURANCE.

ESTABLISHED 1886!

INCORPORATED BY ACT OF PARLIAMENT.

CAPITAL, \$10,000,000.

Fully subscribed by upwards of 700 Shareholders, whose personal liability is unlimited.

VESTED FUNDS, \$3,000,000.

FIRE DEPARTMENT.

This Company grant Insurances against Fire on every description of property.

LIFE DEPARTMENT.

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit without any risk of loss. The participation in profits has been most liberal; should claims arise before the next investigation, a prospective bonus of nearly 1 1/2 per cent. is allotted.

Medical.

## Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your bowels uncomfortable? These symptoms are often the result of a neglected disease. Some of sickness is creeping upon you, and should be averted by a timely use of the right medicine. Ayer's Pills are a safe and reliable remedy, and cleanse out the disordered humors—purify the blood, and give new vigor and energy to the system. They stimulate the functions of the body into vigorous activity, and remove the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement of the system, and the action of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of Ayer's Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public journals, are given in full in the following pamphlet:

From a Forfeiting Merchant of St. Louis, Feb. 4, 1868.

DR. AYER: Your Pills are the patron of all that is great in medicine. They have cured my little daughter of a most dangerous case of cholera, which had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin, and in her face. After a long child was cured, she also tried your Pills, and they have cured her.

ASA MORRISGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purgatives. Their excellent qualities surpass any cathartic I have used. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the timely treatment of the disorders they cure.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that ever came under my hand. I place great dependence on your cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURGH, Pa., May 1, 1868.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse out of that organ. Yours with great respect, ED. W. FREEBIE.

Clerk of St. Edward's Church.

### Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills a most valuable remedy for purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in fact cured more cases of biliousness than I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1868.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic I employ. Their regulating action on the liver is effectual and decided, consequently they are an adjuvant in the treatment of all disorders of that organ. Indeed, I have seldom found a case of biliousness so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M.D., Physician of the Interior.

### Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. They are mild, but the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

### Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARREN, Wyoming Co., N. Y., Oct. 24, 1865.

DEAR SIR: I have used your Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M.D.

### Constipation, Catarrhs, Suppression, Rheumatism, Neuralgia, Dropsy, Paralysis, Etc., etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of constipation. I have used them in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M.D.

Too much cannot be said of your Pills for the cure of constipation. I have used them in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M.D.

Too much cannot be said of your Pills for the cure of constipation. I have used them in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M.D.

## French Medicines.

PREPARED BY

## GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon, PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quick medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s Medicines.

### NO MORE COD LIVER OIL!

## Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atrophy, and Loss of Appetite. It regenerates the constitution in purifying the blood, it being the most powerful purgative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Lungs.

### CONSUMPTION CURED!

## Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Phthisis and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

### NO MORE DIFFICULT OR PAINFUL DIGESTION!

## DR BURIN DU BUISSON'S DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis, Gastralgia, Long and Laborious Digestion, Wind in the Stomach and Bowels, Emaciation, Jaundice, and Complaints of the Liver & Lungs

## NERVOUS HEADACHE, NEURALGIA, DIARRHEA, DYSENTERY, INSTANTLY CURED BY

## Grimault's Guarana.

This vegetable substance, which grows in the Brazil has been employed since time immemorial to cure inflammation of the bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhea.

### NO MORE COPAIBA OR CUBEBS!

## Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of priapic diseases. They are used in the hospitals of Paris, by the celebrated Dr. Ricard, and found greatly superior to all hitherto known mineral remedies and Copal and Cubebs. The Injection is used in recent, and capsules in more chronic cases.

**GENERAL DEPOTS:**

In Victoria—Messrs. **LANGLEY & CO.**

In Paris—At Grimault & Co.'s 45 Rue Bleue.

## DR. J. COLLIS BROWN'S CHLORODYNE.

DR. J. COLLIS BROWN'S CHLORODYNE. Extract from Medical Times, Jan. 12th, 1866.—Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.
